SKB - Research Library (Documents)

These are documents collecting items (data) from my research library. The items can be found in the data directory of this repository. Compiled versions are available on the skb-web (*HTML* integrated in the site, standalone *HTML*, standalone *PDF*) and on my website vandermeer.de (*HTML* integrated in the site).

The main collections are the overall library, my own publications, and my research notes.

ADOC file	description	on skb-web	on vandermeer.de
library.adoc	complete library	html	
vdm.adoc	my publications	html	site
rn-cybernetics.adoc	cybernetic notes	site, html	site
rn-ina.adoc	introduction to network architecture	site, html	site
rn-internet-history.adoc	internet history	site, html	site
rn-policy.adoc	policy-based management and APEX	site, html	site
rn-time-and-date-nm.adoc	time and date in network management	site, html	site

The other files are for entry types, mainly. Talks are a bit different, here I separate keynotes from tutorials, invited talks, and other presentations.
